

Pharmaceuticals

We Build What Matters

For more than 50 years, Industrial Contractors Skanska and PCI Skanska have provided solutions to the pharmaceutical industry including engineering, construction and fabrication services. We have designed and constructed manufacturing plants and processes that deliver the technological solutions required by our ever-changing world. From greenfield plant design and construction to existing plant upgrades, our team has the experience and resources to deliver your project.

Our commitment to safety, environmental stewardship, quality, adherence to schedule, cost and value engineering is at the forefront of our planning process and is paramount to our success. As an industry leader, we provide effective solutions that separate our team from the competition and is crucial to our long-term relationships with our clients.

We are one of the most established, most accomplished and most capable design and construction providers in the pharmaceutical market.

- Aqueous and active coating
- Bin blending
- Bin charging
- Containment
- HSG/FBD
- Laboratories
- Material handling
- Roller compaction
- Tableting
- Tablet printing
- Validated utilities
- Weigh and dispensing

Packaging Experience

- Bottle packaging
- Blister packaging
- Serialization

Our knowledge of plant processes and procedures, process and instrumentation as well as commissioning and validation allows us to provide turn-key solutions and cGMP facilities. We provide the highest level of flexible, integrated engineering, procurement and construction services to some of the most respected and technically demanding pharmaceutical companies in the world.

In today's competitive marketplace, we strive to set ourselves apart from the competition. We are among the first U.S. construction firms to have all operations ISO 14001 certified, a global standard for environmental performance and ISO 45001 a global standard for occupational health and safety management.

We are experienced, committed designers and builders driven to meet the challenging needs of our clients. When you consider our safety culture, credentials, past successes and financial strength, we think you'll agree that Industrial Contractors Skanska and PCI Skanska are the right team for your next project.
