The Skanska Difference

Skanska executes thousands of projects each year guided by our “Five Zeros” goals. With 39 offices across the United States, we serve the industrial and manufacturing industries nationally. We have the workforce, equipment and resources needed to deliver the largest projects and meet accelerated schedules.

From our regional offices, Skanska can effectively execute any industrial project throughout the United States.

- **Our Safety Culture.** The safety and well-being of the workers and communities in which we work is of utmost importance to our project teams. Skanska is the only construction and development company in the U.S. to hold certifications for both ISO 14001, ensuring we’re achieving the highest level of environmental performance for our employees and clients, and OHSAS 18001, focusing on safety systems and procedures. This is reinforced by a corporate-wide commitment to IFE®—an Injury-Free Environment culture. ([http://injuryfreeenvironment.com](http://injuryfreeenvironment.com))

- **Our Green Leadership.** Skanska is committed to delivering innovative and affordable sustainable environmental and building solutions that meet our clients’ initial cost and life cycle goals. We’re leading builders of LEED® (Leadership in Energy and Environmental Design) projects in the U.S.

- **Our Financial Strength.** With Skanska, clients receive local expertise backed by our global resources. Clients benefit from Skanska’s financial strength, providing unparalleled bonding capacity and the assurance that we can bring all of our projects to completion.

- **Our Community Involvement.** Skanska fosters a culture of giving back to the communities in which we live and work. Our leaders actively promote direct service and stewardship as a core value of our business. We support local chapters of organizations such as the United Way, American Red Cross, Ronald McDonald House, Boys & Girls Clubs of America and Habitat for Humanity.

Project Experience

- **Moving Line**
  - **$26.8 million**
  - Skanska added an assembly line for a new aircraft for the U.S. Navy. The scope of work included a new concrete foundation and slab on grade with approximately 500 linear feet of concrete trenches for utility routing.

- **Litho Line Relocation**
  - **$11.5 million**
  - Skanska relocated the Litho Line from an Iowa facility to an Indiana facility, increasing production efficiency by bringing two separate stages of the production process into the same facility.

- **New Production Facility**
  - **$31 million**
  - Skanska constructed a new production and office facility under an aggressive build schedule to meet continued manufacturing demands.

Skanska USA named a Boeing 2012 Supplier of the Year
