We realize in today’s competitive marketplace that the burden has been placed on the Skanska team to set ourselves apart from the competition. We welcome the challenge!

As an example, we are among the first U.S. construction firms to have all operations ISO 14001 certified, a global standard for environmental performance.

When you consider our credentials, our culture, our past successes and our financials, we think you’ll realize that a Skanska team is a powerful resource.

Our Values

Care for Life

We care for life of people and the environment. We work safely, or not at all. We never walk by if we notice unsafe actions. We support health and well-being. We promote green solutions and conduct our operations in a green way. We are accountable to future generations.

Act Ethically and Transparetnly

We do business with a high degree of integrity and transparency. We live by our Code of Conduct and never accept shortcuts. We foster a working climate where everyone can speak their mind.

Be Better – Together

We always strive to be better in all we do. We are a learning organization and generously share our expertise. We take pride in quality and innovation. We build One Skanska teams together with customers, partners and communities. We leverage diversity to deliver the best solutions. We foster an inclusive culture where we are open and fair, showing trust and respect for each other.

Commit to Customers

We help our customers to be successful in their business. We strive to understand their needs and their customers’ needs. We are here to help our customers turn their visions into reality.
